Suddenly Teleworking, Securely

Greg Young, Vice President Cybersecurity
Helping Teleworkers Be Secure

Give them security tools
Protect non-corporate devices
Home routers are weak
Secure Web Gateways
Enterprise storage i.e. Dropbox
Split Tunneling = Telework + SWG

Often missed for new teleworkers is SWG – Split tunnel VPNS = risky browsing
Video and Voice Conferencing: Enterprise or BYOVC

Enterprise versions:

- SSO
- Managed downloads
- Policy Restrictions
- Private options
Video and Voice Conferencing: Enterprise or BYOVC

Bring Your Own:

Unfamiliar interfaces
Could be malware
Extra set of credentials
Where am I storing that recording again?
Don’t Make It Worse...

- Bulk forced password resets for teleworkers
- Loosening policies on password resets
- No recommended apps/tools
- Only supporting in-office apps
